

ACWGC UNION ARMY CAMPAIGN AND BATTLEFIELD RIBBONS AWARDS STUDY

“BG & HPS CHANCELLORSVILLE SERIES”

MASTER STUDY GUIDE

Including the battles
of
**Brock Road, Orange Plank Road, Silver Sabres, Falmouth,
Rappahannock, Marye’s Heights, “Face Off Battles”,
“City Battles”, Fredericksburg, 2nd Fredericksburg,
Wilderness Fields, Fort Jackson, Kelly’s Ford,
Wilderness ’63, Hazel Grove, Ely’s Ford,
Upper Fords, Dowdall’s Tavern,
Salem Church, Bank’s Ford,
“King of the Mountain”,
Burnt Bridges
and
Chancellorsville**

PREPARED AND RESEARCHED
BY
Maj. Gen. Jos. C. Meyer

(OFFICIAL 2008-2009 UA AWARDS COMMITTEE DOCUMENT)

Preface

The following study guide has been carefully constructed to give fundamental support to the ACWGC Union Army Awards system. Army and Corps Commanders will find this study especially useful as a base guide for determining the proper battlefield ribbon for the particular scenario played.

The study guide is constructed in a rolling table format in which all of the actions and battles of the main game package(s) are primarily listed in order of their historical or ahistorical date/time chronology. Larger, multiple-day scenarios generally follow in sequence all of the smaller, single-day scenarios of which they are composed. Note should be taken that this order is not always the order in which the scenarios are presented upon the original game disks. The game and scenario designers did not always undertake a common, progressive identification method in their presentations that could be considered universal in its application. Therefore there are great differences from game package to game package in *how* the scenarios are listed, as well as great differences within the same game package!

The battle date order is further sub-ordered based upon the general date of publication. Thus the TalonSoft BattleGround scenarios and modifications will always precede the HPS Simulations scenarios and modifications for that particular battle date.

The tables are headed by the description of the battle or action with which the scenario group is associated. If there are any scenarios within that description that qualify by turn count for a possible MAJOR VICTORY, then the selected file name and graphic of the updated award ribbon are also displayed within the header, to the right of the older, displaced ribbon.

Each scenario entry within a table includes the ACWGC abbreviation of the parent game, the scenario ID number or type if given, the number of constructed game turns, the historical date of the scenario, and the exact description as given within the game. In addition, the number of scenario turns is prefixed with an alpha character(s), which identifies the nature of the scenario. The exact program *scn* (scenario) file identification is also included with the description.

Note flashes are appropriately inserted into the study guide where necessary to indicate additional information given at the end. Officers are encouraged to scan the abbreviation Legend Key in the rear before using this guide. Special notes are sometimes inserted into the tables for immediate read.

THE 2008-2009 UNION ARMY AWARDS COMMITTEE AND ADVISORY GROUP

General's Jeff Laub, Ernie Sands, John Corbin, Mark Oakford, Antony Barlow, Ken Miller, Derald Riggs, David Danner, Jeff Bangma, and
Major General Joseph Meyer

General Information

This study includes all of the scenarios contained in HPS Campaign Chancellorsville (HPSCCV) and the modified scenarios originating from the TalonSoft Battleground Bull Run (BGBR), Battleground Antietam (BGN), and HPS Corinth 1.01 modifications for the Fredericksburg and Chancellorsville battles.

The new “Chancellorsville Series” UA awards have been designed to integrate well with the existing UA awards and, at the same time, to clearly stand apart. Two existing ribbons had heretofore represented only modified battles of this era, and special treatment has been made to incorporate some of their original color design into the corresponding new battle ribbons. The base color of the new Chancellorsville awards is royal purple. The four basic trim colors include red, rose, black and cream white.

This four-color pattern supports a greater visual distinction of the individual ribbons composing the Chancellorsville Series set, which consists of a total of 14 base ribbons and two “attachment” ribbons. The battle ribbon set is divided into four groups: those battles leading up to Fredericksburg; the Falmouth and Fredericksburg battles; the January to April, 1863 period actions including the battles fought within the Chancellorsville campaign; and the unique “What-If” scenarios following Chancellorsville.

(No ribbons are currently authorized for an AI contest of any length.)

Many of the separate battles and actions were not given distinctive names by the game designer, who preferred instead to identify them largely by just the prosaic elements of their time, date and type. Battle names are a necessary element in the Union Award system. Therefore the battle names suggested for those particular actions were selected after a careful study of the maps, forces involved and campaign overview.

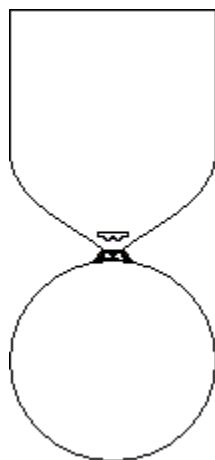

The treatment of the two larger battles, especially Chancellorsville, demanded a closer scrutiny, given the huge variety of both historical and ahistorical scenario constructions and the inclusion of the novel “blind meetings”. After considering a number of different methods and ribbon combinations to adequately distinguish these scenarios from each other, a system of scenario day-length was adopted. This allowed the variations to be distinguished by their scope of challenge and not lumped together unequally.

The game designer also elected to include a larger number of “Equal Force Fights” in this campaign set, some of them 35 turns or greater. In addition, some of the EFF scenarios are overlays of existing non-EFF scenarios of the same name, posing a problem in making a distinction for the awards. This was solved by the addition of an “equal bars” attachment to the EFF award, a precedent which may be adopted whenever this may occur throughout the entire UA battle award inventory.)

UNION ARMY BATTLEFIELD RIBBONS “BG & HPS CHANCELLORSVILLE SERIES”¹

HPS CHANCELLORSVILLE CAMPAIGN
(LG-RIB-CAM_CHN.gif)

HPS CHANCELLORSVILLE CAMPAIGN
(MED_CAM_ABT.gif)

This award given for completing and winning an HPS Chancellorsville campaign of at least two battles against an ACWGC opponent.

no former
ribbon

HPS⁺ CHANCELLORSVILLE (LG-RIB-HPS_CHN.gif)

This award given for winning five Major Victories in the HPS⁺ Chancellorsville game series regardless of scenario length.

The following battlefield ribbons are awarded for a Major Victory in any scenario of at least 35 turns in length from either a Battleground or Campaign Corinth modification or HPS Campaign Chancellorsville game.

¹ LEGEND KEY:

BOLD FACE FONT– 35-turns-or greater scenario (non-AI)

Black Font – Original HPS Campaign Shiloh scenario.

Red Font – Battleground modifications.

Green Font – Corinth 1.01 modifications.

BGBR – BattleGround Bull Run

BGN – BattleGround Antietam

BL – Battalion Level

BM – Blind Meet Scenario

HPSCCV – HPS Campaign Chancellorsville

HPSCC – HPS Campaign Corinth

mod – Modified scenario

AI – Artificial Intelligence Scenario

C – Campaign Scenario

CAM – Campaign Scenario

CL – Company Level

CW – Chancellorsville Weather

EF – Equal Force Scenario

H – Historical Scenario

M – Meeting Scenario

Mod – Modified Scenario

NF – Norris-Frost Scenario
SG – Spring Graphics
W – What-If Scenario
w – Weather Scenario (Weather Rules)

² The first sub-group consists of four, “What-If”, preliminary battles of the Fredericksburg Campaign and a two-day, open simulation of Burnside’s campaign shift to the east and Fredericksburg approach (Rappahannock). These battle ribbons all feature red as the dominant, vertical bar color. A distinction was made between Brock Road and Orange Plank Road, as the first is exclusively a cavalry battle. Silver Sabres is also a cavalry battle but occurs at a later date in the campaign and over a much more broad area. The Rappahannock scenarios have been separated out from the Fredericksburg set and given their own distinguishing name by virtue of their wide open, ahistorical nature; but have also been accorded the unique facsimile central device of the Fredericksburg battle set in addition to the red group color.

³ The second sub-group consists of the actions from November 21 to December 17, 1862. They include one, preliminary, “What-If” battle entitled Marye’s Heights, the so-called “Face Off” and “City” battles (none of which qualify for a ribbon), the single and multiple day versions of Fredericksburg, and an interesting “What-If” situation called 2nd Fredericksburg. These battle ribbons, with the exception of the Fredericksburg ribbons, which contain the facsimile of the original Fredericksburg ribbon, feature rose as the dominant, vertical bar color.

⁴ The third sub-group consists of the actions from January 1 to April 16, 1863. They include two AI Challenge scenarios (Wilderness Fields and Fort Jackson); the historical Kelly’s Ford and Bank’s Ford actions and the imaginary King of the Mountain scenario, none of which qualify for a separate ribbon; and four “What-If” actions (Wilderness ’63, Hazel Grove, Ely’s Ford and Upper Fords) all of which do qualify. This group also includes all of the Chancellorsville day-length variations, the ribbons of which are set apart with the facsimile of the original Chancellorsville ribbon. The group is rounded out with the three actions of Dowdall’s Tavern (an “Equal Fight” scenario), two versions of Salem Church (Historical and “Equal Fight”). With the exception of the Chancellorsville variations, these battle ribbons feature black as the dominant, vertical bar color.

⁵ The fourth sub-group consists solely of the Burnt Bridges “What-If” scenarios, a Union defense of Fredericksburg. The group features cream white as the dominant, vertical bar color.
